

Training Cycle: Phase 11
Cycle Duration: 6 Weeks
Work Week 3/6

Focus: Race Specific Speed and Endurance

### Intensity Note:

- Blue highlights indicate HR Zone 2 or less (Builds your aerobic engine burns fat as a primary fuel source)
- Red highlights indicate HR Zone 3+ (Builds your strength & speed burns stored sugar as a primary fuel source)

# Monday

- Body Analysis: please use your Coach Robb Report Card to log this information for evaluation purposes
- Complete Rest Day

**Misc. Notes:** the key to successful training is eliminating the various distractions that get in your way. The best way to minimize the rippling effect of distractions is to plan ahead. Think about how stressful it is when you are running around short on time or can't find your calories or fluids for a particular workout. The same thing applies to clean eating, the main reason why athletes fall off clean eating is the proverbial "I don't have time to cook". Plan and designate some time to prep what you have purchased so that you can literally grab and go with high quality, low glycemic food, and snack items. Having fresh bottles of filtered water readily available is instrumental in your overall hydration program.

Evening Protocols

**Flexibility:** take 10 minutes and focus on your legs and lower body - <u>click here for a complete video list</u> **Nutrition:** consume 8-10 ounces of cold/filtered water; consume a raw snack and meal.

### Tuesday

- Body Analysis: please use your Coach Robb Report Card to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions MX Aerobic Workout #1

[Please refer to the spreadsheet at the bottom of this document]

**Workout Notes:** This set is going to teach you how much faster you can go when you focus on staying aerobic for 95% of your total ride time. Your last set will feel easy due to fact that you have been aerobic for most of your workout. Pay close attention to your heart rate to ensure that you have the energy stored to drop the hammer during set number five.

# **Post Workout Protocols**

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume <u>Recovery Fuel</u> to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- (Afternoon Workout) Complete Racing Solutions Functional Strength Weight Workout

[Please use the spreadsheet and associated videos listed at the bottom of this document]

**Workout Notes:** these exercises are combined so that you hit all the muscles as a functional unit – the foundation for movement. Because you are using more than one muscle for each exercise, you may find yourself becoming fatigued quickly. Breathe deep and consistently throughout the exercise to maintain optimum performance. Consistently consume your Energy Fuel to maintain proper blood sugar levels and power output.

**Pre-Hydration & Nutrition:** 10-15 minutes prior to this workout, consume 8-10 ounces of <u>Energy Fuel</u> to top off both your calories and provide you the much-needed electrolytes

**Speed of Lift: Explode off the bottom Sets:** 2 (unless it is a timed duration)

Repetitions: 6-8 Reps (both upper & lower body)

Rest Interval: none in between exercises; 1 minute in between cycles

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- Evening Protocols: please reference Monday's notes & video links

### Wednesday

- Body Analysis: please use your Coach Robb Report Card to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions MX Speed Workout #1

[Please refer to the spreadsheet at the bottom of this document]

**Workout Notes:** this day needs to be approached as if it was a national - food, warm up, etc. The mental side of this workout is for you to familiarize your body with what you expect from it on race day: perfect execution of all the homework you have put into your racing. With your focus being on producing the fastest laps possible, your sight lap needs to be focused and productive. Have fluids and calories (exactly what you want to consume on race day) available to maintain your blood sugar levels (to maintain mental clarity and energy) throughout the entire workout.

### **Post Workout Protocols**

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- (Evening Workout) Complete Racing Solutions Fragmented Bike: Heart Rate Intervals (80 Minutes)

Misc. Notes: for this workout you will need your HR zone numbers specific to HR Z3 and Z4; the interval doesn't begin until you get within the indicated HR zone numbers.

**Pre-Hydration & Nutrition:** 10-15 minutes prior to this workout, consume 8-10 ounces of Energy Fuel to top off both your calories and provide you the much-needed electrolytes

Warm Up: HR Zone 1

**Duration:** 15 minutes **Gearing:** small chain ring up front, middle rear gearing **Cadence:** 80-85 (no higher/lower) **Misc.:** stretch and hydrate before moving into your main set

Main Performance Block: 60 Minutes (HR Zone 3)

Set Notes: the interval doesn't begin until you get into HR Z3, so be aggressive without going anaerobic.

#### **Interval Duration:**

7 Minutes Low end of HR Z3 – deep belly breathing and mentally focused

3 Minutes Low end of HR Z4 – be aggressive but in total control

Recovery Interval: 5 minutes **HR Z1** (no higher) – you can't go too easy here

Repeat 4x for a total of 1 hour of work

Cool Down: HR Zone 1: Keep a close eye on your HR level for the final 5 minutes

Duration: 5 minutes

Cadence: 85-90

Gearing: the easiest combination that gets you into HR Z1

Misc.: don't dismount until your heart rate is within HR Z1

(Immediately following your bike workout) Complete Racing Solutions Core & Lower Back Work

Workout notes: complete each of the following exercises for 30 seconds; your rest interval is 30 seconds as you move to the next

exercise. Go through each exercise and then repeat the entire set - total of 2 sets.

3/4 Sit Up: click here for video
Open Abdominals: click here for video
Ab & Hip Risers: click here for video
Ab & Hip Risers: click here for video

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- Evening Protocols: please reference Monday's notes and video links

# **Thursday**

- Body Analysis: please use your Coach Robb Report Card to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions MX Aerobic Workout #2

[Please refer to the spreadsheet at the bottom of this document]

Workout Notes: this workout is going to assess your aerobic capacity on the track. Pay close attention to your heart rate levels throughout each 30 minute moto; if your heart rate goes beyond your 85% heart rate number, you need to slow down and smooth out on the track. Keep in mind that if you go beyond 85%, we will not have an accurate evaluation of your aerobic function on the bike. Taking the smooth lines includes smooth throttle, clutch and brake control everywhere on the track. Focus on landing on the backsides of all the jumps to keep your momentum as high as possible, with the least amount of energy.

### **Post Workout Protocols**

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- (Afternoon Workout) Complete Racing Solutions Combo Strength Weight Workout

[Please use the spreadsheet and associated videos listed at the bottom of this document]

Workout Notes: these exercises are combined so that you hit all the muscles as a functional unit – the foundation for movement. Because you are using more than one muscle for each exercise, you may find yourself becoming fatigued quickly. Breathe deep and consistently throughout the exercise to maintain optimum performance. Consistently consume your Energy Fuel to maintain proper blood sugar levels and power output.

Pre-Hydration & Nutrition: 10-15 minutes prior to this workout, consume 8-10 ounces of Energy Fuel to top off both your calories and provide you the much-needed electrolytes

Speed of Lift: Explode off the bottom

**Sets:** 2 (unless it is a timed duration) **Rest Interval:** none in between exercises; 1 minute in between cycles

**Post Workout Protocols** 

**Repetitions:** 6-8 Reps (both upper & lower body)

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar
- (making tomorrows workouts more productive). Evening Protocols: please reference Monday's notes and video links

### Friday

- Body Analysis please use your Coach Robb Report Card to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions MX Speed Workout #2

[Please refer to the spreadsheet at the bottom of this document]

Workout Notes: as the workout focus header implies, this workout is going to challenge you on creating opening lap speed and then being able to find the fastest lines and duplicate the speed interval after interval. Remember, it doesn't help you to go fast for one lap and then fall off pace, your goal is to create a consistent speed for as many laps as the moto is long. Due to the high level of intensity, your morning breakfast needs to be loaded with protein and carbs (pancakes, waffles, toast, etc.). Maintaining your blood sugar in between sets will improve the overall quality and outcome of the workout.

# **Post Workout Protocols**

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- (Evening Workout) Complete Racing Solutions Bike: Heart Rate Intervals (90 Minutes)

Misc. Notes: for this workout you will need your HR zone numbers specific to HR Z2 and Z3; the interval doesn't begin until you get within the indicated HR zone numbers.

Pre-Hydration & Nutrition: 10-15 minutes prior to this workout, consume 8-10 ounces of Energy Fuel to top off both your calories and provide you the much-needed electrolytes

Warm Up: HR Zone 1

**Duration:** 10 minutes Gearing: small chain ring up front, middle rear gearing Misc.: stretch and hydrate before moving into your main set Cadence: 80-85 (no higher/lower)

Main Performance Block: 75 Minutes (HR Zone 3)

Set Notes: the interval doesn't begin until you get into HR Z3, so be aggressive without going anaerobic.

10 Minutes High End of HR Z3 - be aggressive but in total control (focus on belly breathing and mentally focused on why you are completing these intervals: staying comfortable while performing at an optimal level

5 Minutes Low end of HR Z2 – active recovery; stretch and hydrate as necessary

Repeat 5x for a total of 75 minutes of work

Cool Down: HR Zone 1: Keep a close eye on your HR level for the final 5 minutes

**Duration:** 5 minutes Gearing: the easiest combination that gets you into HR Z1

(Immediately following your bike workout) Complete Racing Solutions Core & Lower Back Work

Workout notes: complete each of the following exercises for 30 seconds; your rest interval is 30 seconds as you move to the next

exercise. Go through each exercise and then repeat the entire set - total of 2 sets.

3/4 Sit Up: click here for video Ab Criss Cross: click here for video Ab & Hip Risers: click here for video **Open Abdominals:** click here for video

**Post Workout Protocols** 

Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves

- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- Evening Protocols: please reference Monday's notes and video links

#### Saturday

- Body Analysis please use your Coach Robb Report Card to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions MX Aerobic Workout Choice

[Please refer to the spreadsheet at the bottom of this document]

Workout Notes: duplicate one of your speed workouts from earlier in the week. Strive to be quicker and more consistent than you were the last time you completed the protocols.

#### **Post Workout Protocols**

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- 2 Hour Power Nap after lunch

Misc. Notes: the growth hormones released during your nap will be your biggest asset when it comes to overall physical improvement. Try to eat a complete meal prior to your nap to enhance the quality.

(Afternoon Workout) Complete Racing Solutions Combo Strength Weight Workout

[Please use the spreadsheet and associated videos listed at the bottom of this document]

Workout Notes: these exercises are combined so that you hit all the muscles as a functional unit – the foundation for movement. Because you are using more than one muscle for each exercise, you may find yourself becoming fatigued quickly. Breathe deep and consistently throughout the exercise to maintain optimum performance. Consistently consume your Energy Fuel to maintain proper blood sugar levels and power output.

Pre-Hydration & Nutrition: 10-15 minutes prior to this workout, consume 8-10 ounces of Energy Fuel to top off both your calories and provide you the much-needed electrolytes

Speed of Lift: Explode off the bottom **Sets:** 2 (unless it is a timed duration)

Repetitions: 6-8 Reps (both upper & lower body)

**Rest Interval:** none in between exercises; 1 minute in between cycles

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- Evening Protocols: please reference Monday's notes and video links

### Sunday

- Body Analysis please use your Coach Robb Report Card to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions MX Speed Workout Choice

[Please refer to the spreadsheet at the bottom of this document]

Workout Notes: duplicate one of your speed workouts from earlier in the week. Strive to be quicker and more consistent than you were the last time you completed the protocols.

#### **Post Workout Protocols**

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- 2 Hour Nap After Mid-Day Meal

Misc. Notes: immediately following your lunch of high quality greens and fruits, lie down in a dark cold room and strive to get two to three hours of sleep. This window of sleep will provide your body with the opportunity to release natural growth hormones to begin the recovery process from this morning's workout. When you wake up, immediately consume a fruit smoothie and a serving of amino acids to provide your body the building blocks necessary to repair your muscles.

Complete Racing Solutions Bike: Heart Rate Intervals (75 Minutes)

Misc. Notes: for this workout you will need your HR zone numbers specific to HR Z2 and Z3; the interval doesn't begin until you get within the indicated HR zone numbers.

Pre-Hydration & Nutrition: 10-15 minutes prior to this workout, consume 8-10 ounces of Energy Fuel to top off both your calories and provide you the much-needed electrolytes

Warm Up: HR Zone 1 **Duration:** 10 minutes

Gearing: small chain ring up front, middle rear gearing Cadence: 80-85 (no higher/lower) Misc.: stretch and hydrate before moving into your main set

Main Performance Block (60 Minutes):

**Set Notes:** the interval doesn't begin until you get into **HR Z3**, so be aggressive without going anaerobic.

Interval Duration:

5 Minutes **High End of HR Z4** – be aggressive but in total control

10 Minutes Low end of HR Z2 – active recovery; stretch and hydrate as necessary

Repeat 4x for a total of 60 minutes of work

Cool Down: HR Zone 1: Keep a close eye on your HR level for the final 5 minutes

**Duration:** 5 minutes Gearing: the easiest combination that gets you into HR Z1 **Cadence:** 85-90 Misc.: don't dismount until your heart rate is within HR Z1

(Immediately following your bike workout) Complete Racing Solutions Core & Lower Back Work

Workout notes: complete each of the following exercises for 30 seconds; your rest interval is 30 seconds as you move to the next

exercise. Go through each exercise and then repeat the entire set - total of 2 sets.
