

Training Cycle: Phase 3
Cycle Duration: 6 Weeks
Work Week 3/6

Focus: Enhanced Strength | Speed | Endurance

Intensity Note:

- Blue highlights indicate HR Zone 2 or less (Builds your aerobic engine burns fat as a primary fuel source)
- Red highlights indicate HR Zone 3+ (Builds your strength & speed burns stored sugar as a primary fuel source)

Monday

- Body Analysis: please use your Coach Robb Report Card to log this information for evaluation purposes
- Complete Rest Day

Misc. Notes: use any extra time that you have in your day to improve your range of motion within your hips, knees and shoulder joints; the better your range of motion the better your strength & endurance will be throughout all of your workouts. To help you improve your range of motion, please implement this <u>foam roller sequence</u>. The foam roller will "break up" any adhesions that begin to form between the various layers of tissue: top layer: skin, next layer down: adipose, next layer down: fascia, next layer down: muscle. Due to dehydration, the fascia can become "stuck" to the muscles below causing a limited range of motion within the muscle tissue. The foam roller and trigger point ball will keep this situation from arising just by applying consistent therapy on regular basis; I like to view foam rolling, trigger point therapy and stretching as pre-hab verses rehab!

• **Evening Protocols:** watch this video in a place where you have zero distractions for 10 minutes (the length of the video).

Flexibility: after your shower, grab a tennis, lacrosse or TP ball and work on your calves and quads/hips

Nutrition: 15 minutes before bed, take your fish oil, multi-vitamin and whey protein shake to offset inflammation & free radicals

Tuesday

- Body Analysis: please use your Coach Robb Report Card to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions MX: Aerobic Workout #1

[Please refer to the spreadsheet at the bottom of this document]

Workout Notes: the emphasis for this workout is to lower your overall effort (based exclusively on your heart rate) and learn how to ride smooth, yet efficiently fast. It doesn't take a lot for you to "push the pace"; however, it will take patience and mental focus to find a comfortable speed with a lower overall heart rate. By following the indicated intensity levels, you will learn that you can become faster by lowering your effort down thanks to the momentum you will create. Remember, stay focused and Ride Smart Not Hard!

Post Workout Protocols

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads, and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- (Afternoon Workout) Complete Racing Solutions Combo Weight Workout: Muscular Endurance Phase 1

[Please use the spreadsheet and associated videos listed at the bottom of this document]

Workout notes: come into this workout session mentally prepared to be challenged. Take extra precaution NOT to lose your form as you complete the exercises – this will only increase your chance for injury. Stretching in between exercises will help keep the muscles from cramping up and keep them performing at a maximum output level; with the shorter rep count, you will have the time.).

Pre-Hydration & Nutrition: 10-15 minutes prior to this workout, consume 8-10 ounces of <u>Energy Fuel</u> to top off both your calories and provide electrolytes for proper muscle contraction.

Weight: choose a weight that you can complete 10 reps with good form; maintain the same weight for second set

Speed of Lift: quick off the bottom, slow (3 count) back to your starting point

Rep Count:

Upper Body the goal is to complete **8-10 reps max**Lower Body the goal is to complete **8-10 reps max**

Sets: 2

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads, and calves
- Nutrition: immediately consume <u>Recovery Fuel</u> to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- Evening Protocols: please reference Monday's notes

Wednesday

- Body Analysis: please use your Coach Robb Report Card to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions MX: Speed Workout #1

[Please refer to the spreadsheet at the bottom of this document]

Workout Notes: pay extra attention to your heart rate for the first 15 minutes of each block - HR Z2 or less. At the 15-minute mark, bump up the pace slightly (into HR Z3) by driving your entry speed along with a smooth and early throttle on your exits. Remember, the smoother you ride, the lower your heart rate (resulting in more burned fat and the conservation of stored sugar in your liver and muscles).

Post Workout Protocols

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads, and calves
- Nutrition: immediately consume <u>Recovery Fuel</u> to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- (Afternoon workout) Complete Racing Solutions Bike: Pacing Intervals (30 Minutes)

Workout notes: to maximize your productivity for this workout, you will need to have your bike computer set to speed & easily available to you. Each interval block will last five (5) minutes with five (5) minute recovery (no shorter to maintain optimum power output).

Pre-Hydration & Nutrition: 10-15 minutes prior to this workout, consume 8-10 ounces of Energy Fuel to top off both your calories and provide electrolytes for proper muscle contraction.

Warm up (HR Zone 1):

Duration: 5 minutes **Gearing:** small chain ring up front, middle rear gearing **Cadence:** 80-85 (no higher/lower) **Misc.:** stretch and hydrate before moving into your main set

REPEAT THE FOLLOWING FOR 20 Minutes (HR Z2 – no higher)

5 Minute Pacing Block

Each minute you will *increase your speed by 1 mph*. For example: Minute 1-15 mph, Minute 2-16 mph, etc. Adjust your gearing so that your cadence stays within 75-85 but still hit your goal pace of each minute after being established by interval #1(hold yourself accountable here).

5 Minute Recovery Block

5 minutes of easy spinning; you can't spin too easy here.

Misc. Notes: Hydrate with Energy Fuel every 10 minutes to maintain your blood sugar levels

Cool Down (HR Zone 1): Keep a close eye on your HR level for the final 5 minutes

Duration: 5 minutes **Gearing:** the easiest combination that gets you into HR Z1 **Cadence:** 85-90 **Misc.:** don't dismount until your heart rate is within HR Z1

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads, and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- **Evening Protocols:** please reference Monday's notes

Thursday

- Body Analysis: please use your Coach Robb Report Card to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions MX: Aerobic Workout #2

[Please refer to the spreadsheet at the bottom of this document]

Workout Notes: this workout is long, so the intensity needs to be low (wear your heart rate monitor to help keep you within the optimum zones). By staying aerobic during the entire workout, you are teaching your body to burn body fat as a primary fuel source. This will result in an improved VO2 Max along with a decreased percentage of body fat. If you feel anything tighten up, stop immediately, isolate and stretch the tissue passively until it releases.

Post Workout Protocols

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads, and calves
- Nutrition: immediately consume <u>Recovery Fuel</u> to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- (Afternoon Workout) Complete Racing Solutions Combo Weight Workout: Muscular Endurance Phase 1

[Please use the spreadsheet and associated videos listed at the bottom of this document]

Workout notes: come into this workout session mentally prepared to be challenged. Take extra precaution NOT to lose your form as you complete the exercises – this will only increase your chance for injury. Stretching in between exercises will help keep the muscles from cramping up and keep them performing at a maximum output level; with the shorter rep count, you will have the time.).

Pre-Hydration & Nutrition: 10-15 minutes prior to this workout, consume 8-10 ounces of <u>Energy Fuel</u> to top off both your calories and provide electrolytes for proper muscle contraction.

Weight: choose a weight that you can complete 10 reps with good form; maintain the same weight for second set

Speed of Lift: quick off the bottom, slow (3 count) back to your starting point

Rep Count:

Upper Body the goal is to complete **8-10 reps max**Lower Body the goal is to complete **8-10 reps max**

Sets: 2

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads, and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- Evening Protocols: please reference Monday's notes

Friday

- Body Analysis please use your Coach Robb Report Card to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions MX: Speed Workout #2

[Please refer to the spreadsheet at the bottom of this document]

Workout Notes: we are going to change the format around; sprint early and then settle into a comfortable pace. To maximize your efforts, when back down your intensity, strive to maintain consistent fundamentals. Many are not aware that what makes riding and racing so fatiguing is bouncing off of the faces and deviating from fundamentals. Capture your lap times and compare your heart rate data to see how much "faster" you were riding during your opening laps along with what "effort" did it take to obtain these lap times.

Post Workout Protocols

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- (Evening Workout) Complete Racing Solutions Bike: Even Tempo/ Aerobic Enhancement (30 Minutes)

Workout Notes: the key to this workout is making sure that you stay within HR Z2 (no higher); this will teach your body to spare sugar and burn stored body fat for energy (making you leaner and improving your VO2 Max).

Pre-Hydration & Nutrition: 10-15 minutes prior to this workout, consume 8-10 ounces of <u>Energy Fuel</u> to top off both your calories and provide electrolytes for proper muscle contraction.

Warm Up: HR Zone 1

Duration: 5 minutes **Gearing:** small chain ring up front, middle rear gearing **Cadence:** 80-85 (no higher/lower) **Misc.:** stretch and hydrate before moving into your main set

Main Performance Block: 20 minutes (HR Zone 2)

Set Notes: with your cadence between 75-85; tallest gearing that you can maintain while keeping the chain tension tight and maintaining your cadence zone; every 5 minutes stand up and stretch your hamstrings, guads, calves, and lower back.

Warm down: 5 Minutes (HR Zone 1)

Duration: 5 minutes (no shorter) **Gearing:** small chain ring up front, middle rear gearing

Cadence: 70-80 (no higher/lower) Misc. Notes: stretch your lower back, calves, and quads prior to dismounting

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads, and calves
- Nutrition: immediately consume <u>Recovery Fuel</u> to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- Evening Protocols: please reference Monday's notes

Saturday

- Body Analysis please use your Coach Robb Report Card to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions MX: Aerobic Workout Choice

[Please refer to the spreadsheet at the bottom of this document]

Workout Notes: your goal is to be better than your last workout by 1-2%. Where can you improve your times and consistency will be a skill that you will need to tap into on race days.

Post Workout Protocols

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume <u>Recovery Fuel</u> to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- 2 Hour Nap After Mid-Day Meal

Misc. Notes: chronic dehydration is an easy fix: focus on consuming fruits and vegetables on a regular basis. Fruits and vegetables are loaded with natural electrolytes (sodium, potassium, calcium, magnesium) and contain a high level of water. Additionally, consuming them on a regular basis will not only provide you electrolytes and water, but they will also provide you antioxidants that will offset the negative side effects of free radicals (produced during high intensity training). By viewing fruits and vegetables as a performance enhancer will no doubt increase your consumption!

(Afternoon Workout) Complete Racing Solutions Combo Weight Workout: Muscular Endurance Phase 1

[Please use the spreadsheet and associated videos listed at the bottom of this document]

Workout notes: come into this workout session mentally prepared to be challenged. Take extra precaution NOT to lose your form as you complete the exercises – this will only increase your chance for injury. Stretching in between exercises will help keep the muscles from cramping up and keep them performing at a maximum output level; with the shorter rep count, you will have the time.).

Pre-Hydration & Nutrition: 10-15 minutes prior to this workout, consume 8-10 ounces of <u>Energy Fuel</u> to top off both your calories and provide electrolytes for proper muscle contraction.

Weight: choose a weight that you can complete 10 reps with good form; maintain the same weight for second set

Speed of Lift: quick off the bottom, slow (3 count) back to your starting point

Rep Count:

Upper Body the goal is to complete **8-10 reps max**Lower Body the goal is to complete **8-10 reps max**

Sets: 2

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads, and calves
- Nutrition: immediately consume <u>Recovery Fuel</u> to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- Evening Protocols: please reference Monday's notes

Sunday

- Body Analysis please use your Coach Robb Report Card to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions MX: Speed Workout Choice

[Please refer to the spreadsheet at the bottom of this document]

Workout Notes: your goal is to be better than your last workout by 1-2%. Get creative on your line choices so that you don't fatigue yourself by bouncing off of everything, but instead you find new speeds by riding smart and efficiently.

Post Workout Protocols

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads, and calves
- Nutrition: immediately consume <u>Recovery Fuel</u> to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- 2 Hour Nap After Lunch

Misc. Notes: immediately following your lunch of high-quality greens and fruits, lie down in a dark cold room and strive to get two to three hours of sleep. This window of sleep will provide your body with the opportunity to release natural growth hormones to begin the recovery process from this morning's workout. When you wake up, immediately consume a fruit smoothie and a serving of amino acids to provide your body the building blocks necessary to repair your muscles.

(Afternoon Workout) Complete Racing Solutions Bike: Even Tempo (45 Minutes)

Workout Notes: Set your watch to remind yourself to drink and stretch as needed to maintain your blood sugar levels and maintain your range of motion within all working muscle groups.

Pre-Hydration & Nutrition: 10-15 minutes prior to this workout, consume 8-10 ounces of cold <u>Energy Fuel</u> to top off both your calories and provide electrolytes for proper muscle contraction.

Warm up (HR Zone 1):

Duration: 10 minutes **Gearing:** small chain ring up front, middle rear gearing **Cadence:** 80-85 (no higher/lower) **Misc.:** stretch and hydrate before moving into your main set

Main Performance Block: 30 Minutes (HR Zone 2)

Set Notes: Keep your cadence between 85-95 focusing on optimized pedal mechanics; stand up and stretch your hamstrings, quads, calves and lower back every 15 minutes (at the least). Hydrate to maintain your blood sugar levels every 15 minutes.

Cool Down (HR Zone 1):

Duration: 5 minutes (no shorter) **Gearing:** small chain ring up front, middle rear gearing

Cadence: 70-80 (no higher/lower)

- **Flexibility:** complete an <u>entire stretch routine</u> for your hips, hamstrings, quads, and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- Evening Protocols: please reference Monday's notes

Combo Weight Workout - Muscular Endurance Phase 1		
Warm Up	Date	Date
10 Minute Warm Up: Easy spin on the bicycle or even temp pull on the Concept 2 rower		
Lower Body Cycle: No Rest in between exercises - 1 Minute rest at the end of the complete cycle		
Walking Lunges - 20 Steps (Out and Back)		
Instructional Videos: Walking Lunges		
Weight (Moderate)		
Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)		
Weight (Moderate)		
Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)		
Single Leg - Good Mornings		
Instructional Video: Single Leg-Good Morning		
Weight (Moderate)		
Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)		
Weight (Moderate)		
Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)		
Single Leg - Calf Risers		
Instructional Video: Single Leg Calf Raises		
Weight (Moderate)		
Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)		
Weight (Moderate)		
Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)		
Side Skaters		
Instructional Video: Side Skaters		
Rep 1 (as many as you can complete in 30 seconds)		
Rep 2 (as many as you can complete in 30 seconds)		
Static Wall Squats (Goal 60 Seconds)		
Instructional Video: Static Wall Squats		
Duration #1 (Pause and stretch your quads when you are finished to alleviate a muscle pull)		
Duration #2 (Pause and stretch your quads when you are finished to alleviate a muscle pull)		

Core & Lower Back Cycle (No Rest in between exercises - 1 Minute rest at the end of the complete cycle)	Date	Date
Pike Position (Goal 60 Seconds)		
Instructional Video: Pike Position		
Duration #1 (Roll over on your back and reach up and extend your toes - stretch your core)		
Duration #2 (Roll over on your back and reach up and extend your toes - stretch your core)		
Ab Roll Out On Fit Ball		
Instructional Video: Abdominal Roll out on Fit Ball		
Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)		
Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)		
Abdominals On Fit Ball		
Instructional Video: Abdominal Crunch on Fit Ball		
Weight (Moderate)		
Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)		
Weight (Moderate)		
Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)		
Pike - Push Up - Pike (30 Seconds)		
Instructional Video: Pike-Push Up-Pike		
Rep 1 (as many as you can complete in 30 seconds)		
Rep 2 (as many as you can complete in 30 seconds)		
Super Man's On Belly		
Instructional Video: Superman Strength Exercise		
Rep 1 (8-10 with good form – slow movement the entire range of motion)		
Rep 2 (8-10 with good form – slow movement the entire range of motion)		

Clean & Jerk/Shoulder Press On Indo Board** Instructional Video: Indo Board Clean and Jerk Shoulder Press Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Single Leg - Bent Over Row Instructional Video: Single Leg Bent Over Row Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Push Ups On Indo-Board (or on the floor with your eyes closed) Instructional Video: Indo Board Push Ups Rep 1 (as many as you can complete in 30 seconds) Rep 2 (as many as you can complete in 30 seconds) Rotator Cuff Rotation on Fit Ball Instructional Video: Rotator Cuff Rotation on Fit Ball Weight (Light) Rep 1 (8-10 with good form – slow movement the entire range of motion) Weight (Light) Rep 2 (8-10 with good form – slow movement the entire range of motion) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)	Upper Body Cycle (No Rest in between exercises)	Date	Date
Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Single Leg – Bent Over Row Instructional Video: Single Leg Bent Over Row Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Push Ups On Indo-Board (or on the floor with your eyes closed) Instructional Video: Indo Board Push Ups Rep 1 (as many as you can complete in 30 seconds) Rep 2 (as many as you can complete in 30 seconds) Rotator Cuff Rotation on Fit Ball Instructional Video: Rotator Cuff Rotation on Fit Ball Weight (Light) Rep 1 (8-10 with good form – slow movement the entire range of motion) Weight (Light) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Lat Drop-Triceps Press on Fit Ball Instructional Video: Lat Pull Over-Triceps Extension Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Rear Deltoid on Single Leg Instructional Video: Rear Deltoid on Single Leg Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)	Clean & Jerk/Shoulder Press On Indo Board™		
Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Single Leg - Bent Over Row Instructional Video: Single Leg Bent Over Row Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Push Ups On Indo-Board (or on the floor with your eyes closed) Instructional Video: Indo Board Push Ups Rep 1 (as many as you can complete in 30 seconds) Rep 2 (as many as you can complete in 30 seconds) Rotator Cuff Rotation on Fit Ball Instructional Video: Rotator Cuff Rotation on Fit Ball Weight (Light) Rep 1 (8-10 with good form – slow movement the entire range of motion) Weight (Light) Rep 2 (8-10 with good form – slow movement the entire range of motion) Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Rear Deltoid on Single Leg Instructional Video: Rear Deltoid on Single Leg Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)	Instructional Video: Indo Board Clean and Jerk Shoulder Press		
Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Single Leg - Bent Over Row Instructional Video: Single Leg Bent Over Row Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Push Ups On Indo-Board (or on the floor with your eyes closed) Instructional Video: Indo Board Push Ups Rep 1 (as many as you can complete in 30 seconds) Rep 2 (as many as you can complete in 30 seconds) Rotator Cuff Rotation on Fit Ball Instructional Video: Rotator Cuff Rotation on Fit Ball Weight (Light) Rep 1 (8-10 with good form – slow movement the entire range of motion) Weight (Light) Rep 2 (8-10 with good form – slow movement the entire range of motion) Lat Drop-Triceps Press on Fit Ball Instructional Video: Lat Pull Over-Triceps Extension Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Rear Deltoid on Single Leg Instructional Video: Rear Deltoid on Single Leg Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)	Weight (Moderate)		
Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Single Leg - Bent Over Row Instructional Video: Single Leg Bent Over Row Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Push Ups On Indo-Board (or on the floor with your eyes closed) Instructional Video: Indo Board Push Ups Rep 1 (as many as you can complete in 30 seconds) Rep 2 (as many as you can complete in 30 seconds) Rotator Cuff Rotation on Fit Ball Instructional Video: Rotator Cuff Rotation on Fit Ball Weight (Light) Rep 1 (8-10 with good form – slow movement the entire range of motion) Weight (Light) Rep 2 (8-10 with good form – slow movement the entire range of motion) Lat Drop-Triceps Press on Fit Ball Instructional Video: Lat Pull Over-Triceps Extension Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Rear Deltoid on Single Leg Instructional Video: Rear Deltoid on Single Leg Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 1 (3-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (3-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 1 (3-10 with good form – be quick off the bottom of the lift/slow back to your starting point)	Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)		
Single Leg - Bent Over Row Instructional Video: Single Leg Bent Over Row Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Push Ups On Indo-Board (or on the floor with your eyes closed) Instructional Video: Indo Board Push Ups Rep 1 (as many as you can complete in 30 seconds) Rep 2 (as many as you can complete in 30 seconds) Rotator Cuff Rotation on Fit Ball Instructional Video: Rotator Cuff Rotation on Fit Ball Weight (Light) Rep 1 (8-10 with good form – slow movement the entire range of motion) Weight (Light) Rep 2 (8-10 with good form – slow movement the entire range of motion) Lat Drop-Triceps Press on Fit Ball Instructional Video: Lat Pull Over-Triceps Extension Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Rear Deltoid on Single Leg Instructional Video: Rear Deltoid on Single Leg Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Rear Deltoid on Single Leg Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)	Weight (Moderate)		
Instructional Video: Single Leg Bent Over Row Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Push Ups On Indo-Board (or on the floor with your eyes closed) Instructional Video: Indo Board Push Ups Rep 1 (as many as you can complete in 30 seconds) Rep 2 (as many as you can complete in 30 seconds) Rotator Cuff Rotation on Fit Ball Instructional Video: Rotator Cuff Rotation on Fit Ball Weight (Light) Rep 1 (8-10 with good form – slow movement the entire range of motion) Weight (Light) Rep 2 (8-10 with good form – slow movement the entire range of motion) Lat Drop-Triceps Press on Fit Ball Instructional Video: Lat Pull Over-Triceps Extension Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Rep 2 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point) Weight (Moderate) Rep 1 (8-10 with good form – be quick off the bottom of the lift/slow back to your starting point)	Rep 2 (8-10 with good form - be quick off the bottom of the lift/slow back to your starting point)

Liapsca Tillies.	•	Rest For 10 Minutes - Stretch from head to toe / Re-hydrate with Energy Fuel				
Warm Down					d wait for it to come down	< 40%

Complete Racing Solutions MX Speed Workout #1

Workout Notes: pay extra attention to your heart rate for the first 15 minutes of each block - HR Z2 or less. At the 15-minute mark, bump up the pace slightly (into HR Z3) by driving your entry speed along with a smooth and early throttle on your exits. Remember, the smoother you ride, the lower your heart rate (resulting in more burned fat and the conservation of stored sugar in your liver and muscles).

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).

Complete Racing Solutions Aerobic MX Workout #1	Workout Focus: Consistent Race Speed Total Ride Time: 60 Minutes	_
	Description	
Warm Up	Focus: Gradual Warm Up	Intensity
	Instructional Video on how to set up the Concept 2 Rower	Less Than
Workout Protocol:	Ride either a bike or Concept 2 Rower easy for 10 minutes - even tempo	40%
	Stretch passively (no bouncing) from head to toe / Re-hydrate with Energy Fuel	
Main Set #1	Set Focus: Consistency Challenge with your start and first turn	Intensity
Workout Protocol:	Complete 10 starts - through the first turn and down the entire first straight (be aggressive!) Keep a close eye on your body position - attack, looking up and using your legs/core combination	
	Take your time from the start to the end of the first straight away	
Elapsed Times:	Interval 1: Interval 2: Interval 3: Interval 4: Interval 5:	N/A

Complete Racing Solutions MX Aerobic Workout #2

Workout Notes: this workout is long, so the intensity needs to be low (wear your heart rate monitor to help keep you within the optimum zones). By staying aerobic during the entire workout, you are teaching your body to burn body fat as a primary fuel source. This will result in an improved VO2 Max along with a decreased percentage of body fat. If you feel anything tighten up, stop immediately, isolate and stretch the tissue passively until it releases.

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads, and calves
- **Nutrition:** immediately consume <u>Recovery Fuel</u> to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
