

Training Cycle:
Cycle Duration:
Work Week
Focus:

Phase 13
6 Weeks
1/6
Race Specific Speed, Strength, and Endurance

Intensity Note:

- *Blue highlights indicate HR Zone 2 or less (Builds your aerobic engine – burns fat as a primary fuel source)*
- *Red highlights indicate HR Zone 3 or above (Builds your strength & speed – burns fat as a primary fuel source)*

Monday

- **Body Analysis:** please use your Coach Robb Report Card to log this information for evaluation purposes
- **Complete Rest Day**
Misc. Notes: let your focus for today be to optimize your range of motion throughout your entire body. This includes maintaining your hydration levels (half of your body weight in ounces of water); consistent consumption of fruits and vegetables (loaded with natural electrolytes and water) and spending 15-20 minutes of [foam rolling, isolated stretching, and dynamic stretches](#). Improving your range of motion (i.e., reducing the amount of restriction within the muscles) will improve both your strength & endurance from the inside out.
- **Evening Mental Protocols:** watch this video in a place where you have zero distractions for 10 minutes (the length of the video).
Psychology: concept video "[Face your fear of Failure](#)" – [video link](#)

Tuesday

- **Body Analysis:** please use your Coach Robb Report Card to log this information for evaluation purposes
- **(Morning Workout) Complete Racing Solutions Combo Weight Workout**
[Please use the spreadsheet and associated videos listed at the bottom of this document]
Workout Notes: these exercises are familiar with a longer duration.
Pre-Hydration & Nutrition: 10-15 minutes before this workout, consume 8-10 ounces of cold [Energy Fuel](#) to top off both your calories and provide electrolytes for proper muscle contraction.

Sets: 2
Duration: 40 Seconds (unless otherwise noted)
Post Workout Protocols
 - **Flexibility:** complete an [entire stretch routine](#) for your hips, hamstrings, quads and calves
 - **Nutrition:** immediately consume [Recovery Fuel](#) to shorten your recovery window and replace depleted muscle sugar (making tomorrow's workouts more productive).
- **Evening Protocols**
Nutrition: consume 8 ounces of [Energy Fuel](#) to top off your electrolytes and hydration levels
Foam Roller & Trigger Point Therapy: soften the muscle and connective tissue with the [foam roller & then apply TP therapy](#)
Diaphragmic Breathing: [click here](#) to strengthen your diaphragm (your breathing muscle), breath through a straw & nose closed

Wednesday

- **Body Analysis:** please use your Coach Robb Report Card to log this information for evaluation purposes

Complete One of the Following for your Morning Workout:

- **Complete Racing Solutions Row: HR Intensity Blocks (60-70 Minutes)**

Workout Notes: this workout is going to acclimate your body to stay comfortable while it is working at a high level of intensity. To maximize the amount of oxygen available to your working muscles, focus on diaphragmatic breathing through your stomach and then your chest. Remember to lead with your legs for maximum power output and optimized endurance.

Pre-Hydration & Nutrition: 10-15 minutes before this workout, consume 8-10 ounces of cold [Energy Fuel](#) to top off both your calories and provide electrolytes for proper muscle contraction.

Warm-up: HR Zone 1: Focus on a straight back and leading with your legs and finishing with your arms coming to your chest.

Load Level: 3 **Distance:** 2000 Meters **Pull Rate:** 20-25 **Stretch from head to toe**

Main Set#1: 5 x 1000 Meters: pick up the pace every 200 meters up to HR Z3 (no higher)

Load Level: 7 **Pull Rate:** 25-35

Transition Set: 1000 Metes – HR Z2 – stretch & rehydrate as necessary

Main Set#2: 5 x 1000 meters: HR Z3 (no higher or lower) - 500 meters/ Active Recovery: HR Z2 or less (no higher)

Load Level: 7 **Pull Rate:** 25+

Cool Down-HR Zone 1: Focus on a straight back leading with your legs and finishing with your arms coming to your chest.

Load Level: 3 **Duration:** 1000 Meters **Pull Rate:** less than 25 **Stretch from head to toe**

Post Workout Protocols

- **Flexibility:** complete an [entire stretch routine](#) for your hips, hamstrings, quads and calves
- **Nutrition:** immediately consume [Recovery Fuel](#) to shorten your recovery window and replace depleted muscle sugar (making tomorrow's workouts more productive).

- **Complete Racing Solutions Even Tempo Bike (90 Minutes)**

Misc. Notes: For this workout, you will need to know your HR Z2 numbers (high and low specific numbers).

Pre-Hydration & Nutrition: 10-15 minutes before this workout, consume 8-10 ounces of cold [Energy Fuel](#) to top off both your calories and provide electrolytes for proper muscle contraction.

Warm-up (HR Zone 1):

Duration: 10 minutes

Cadence: 80-85 (no higher/lower)

Gearing: small chain ring up front, middle rear gearing

Misc.: stretch and hydrate before moving into your main set

Main Performance Block (HR Zone 2): 1:15

Set Notes: Keep your cadence between 85-95 focusing on optimized pedal mechanics; stand up and stretch your hamstrings, quads, calves and lower back every 15 minutes (at the least). Hydrate to maintain your blood sugar levels every 15 minutes.

Cool Down (HR Zone 1):

Duration: 5 minutes

Cadence: 85-90

Gearing: the easiest combination that gets you into HR Z1

Misc.: don't dismount until your heart rate is within HR Z1

Post Workout Protocols

- **Flexibility:** complete an [entire stretch routine](#) for your hips, hamstrings, quads and calves
- **Nutrition:** immediately consume [Recovery Fuel](#) to shorten your recovery window and replace depleted muscle sugar (making tomorrow's workouts more productive).

- **Evening Protocols**

Nutrition: consume 8 ounces of [Energy Fuel](#) to top off your electrolytes and hydration levels

Foam Roller & Trigger Point Therapy: soften the muscle and connective tissue with the [foam roller & then apply TP therapy](#)

Diaphragmatic Breathing: [click here](#) to strengthen your diaphragm (your breathing muscle), breath through a straw & nose closed

Thursday

- **Body Analysis:** please use your Coach Robb Report Card to log this information for evaluation purposes
- **(Morning Workout) Complete Racing Solutions Combo Weight Workout**
[Please use the spreadsheet and associated videos listed at the bottom of this document]
Workout Notes: these exercises are familiar with a longer duration.
Pre-Hydration & Nutrition: 10-15 minutes before this workout, consume 8-10 ounces of cold [Energy Fuel](#) to top off both your calories and provide electrolytes for proper muscle contraction.

Sets: 2
Duration: 40 Seconds (unless otherwise noted)
Post Workout Protocols
 - **Flexibility:** complete an [entire stretch routine](#) for your hips, hamstrings, quads and calves
 - **Nutrition:** immediately consume [Recovery Fuel](#) to shorten your recovery window and replace depleted muscle sugar (making tomorrow's workouts more productive).
- **Evening Protocols**
Nutrition: consume 8 ounces of [Energy Fuel](#) to top off your electrolytes and hydration levels
Foam Roller & Trigger Point Therapy: soften the muscle and connective tissue with the [foam roller & then apply TP therapy](#)
Diaphragmic Breathing: [click here](#) to strengthen your diaphragm (your breathing muscle), breath through a straw & nose closed

Friday

- **Body Analysis – please use your Coach Robb Report Card to log this information for evaluation purposes**
Complete One (1) of the following for your morning workout:
- **Complete Racing Solutions Row: Heart Rate Intensity Blocks (55 Minutes)**
Misc. Notes: for maximum productivity, pay close attention to your intensity levels throughout this workout. Your awareness of what each intensity level "feels" like increases your familiarity with the intensity and associated speed. This awareness also provides you feedback regarding how long you can maintain the various intensity levels (keep in mind the inverse relationship of volume & intensity – the higher the intensity, the lower the duration you can maintain and visa versa).

Pre-Hydration & Nutrition: 10-15 minutes before this workout, consume 8-10 ounces of cold [Energy Fuel](#) to top off both your calories and provide electrolytes for proper muscle contraction.

Warm up-HR Zone 1: Focus on a straight back leading with your legs and finishing with your arms coming to your chest.
Load Level: 3 Duration: 5 Minutes Pull Rate: less than 25 Stretch from head to toe

Main Set#1: Have your HR Zones written down and easily visible during this workout to eliminate missing your intensity levels
Load Level: 7 Pull Rate: 25-35
Settle into each HR Zone as quickly as possible and then settle into the effort level with perfect form and deep breathing
15 Minutes: Upper range (5 beats of your top number) of **HR Z2**
15 Minutes: Lower range (5 beats of your low number) of **HR Z3**
15 Minutes: Upper range (5 beats of your top number) of **HR Z3**
Total of 45 minutes

Cool Down-HR Zone 1: Focus on a straight back leading with your legs and finishing with your arms coming to your chest.
Load Level: 2 Duration: 5 Minutes Pull Rate: less than 25 Stretch from head to toe
Post Workout Protocols
 - **Flexibility:** complete an [entire stretch routine](#) for your hips, hamstrings, quads and calves
 - **Nutrition:** immediately consume [Recovery Fuel](#) to shorten your recovery window and replace depleted muscle sugar (making tomorrow's workouts more productive).
- **Complete Racing Solutions Bike: Heart Rate Intervals (75 Minutes)**
Misc. Notes: For this workout, you will need your HR zone numbers specific to **HR Z2 and Z3**; the interval doesn't begin until you get within the indicated HR zone numbers.

Pre-Hydration & Nutrition: 10-15 minutes before this workout, consume 8-10 ounces of cold [Energy Fuel](#) to top off both your calories and provide electrolytes for proper muscle contraction.

Warm Up: HR Zone 1
Duration: 10 minutes
Cadence: 80-85 (no higher/lower)
Gearing: small chain ring up front, middle rear gearing
Misc.: stretch and hydrate before moving into your main set

Main Performance Block: 75 Minutes (HR Zone 3)

Set Notes: the interval doesn't begin until you get into **HR Z3**, so be aggressive without going anaerobic.

Interval Duration:

5 Minutes **High End of HR Z4** – be aggressive but in total control (focus on belly breathing and mentally focused on why you are completing these intervals: staying comfortable while performing at an optimal level)

10 Minutes **Low end of HR Z2** – active recovery; stretch and hydrate as necessary

Repeat 4x for a total of 60 minutes of work

Cool Down: HR Zone 1: Keep a close eye on your HR level for the final 5 minutes

Duration: 5 minutes

Gearing: the easiest combination that gets you into **HR Z1**

Cadence: 85-90

Misc.: don't dismount until your heart rate is within **HR Z1**

Post Workout Protocols

- **Flexibility:** complete an [entire stretch routine](#) for your hips, hamstrings, quads and calves
- **Nutrition:** immediately consume [Recovery Fuel](#) to shorten your recovery window and replace depleted muscle sugar (making tomorrow's workouts more productive).

▪ **Evening Protocols**

Nutrition: consume 8 ounces of [Energy Fuel](#) to top off your electrolytes and hydration levels

Foam Roller & Trigger Point Therapy: soften the muscle and connective tissue with the [foam roller & then apply TP therapy](#)

Diaphragmic Breathing: [click here](#) to strengthen your diaphragm (your breathing muscle), breath through a straw & nose closed

Saturday

- **Body Analysis** – please use your Coach Robb Report Card to log this information for evaluation purposes
- **(Morning Workout) Complete Racing Solutions MX Aerobic Workout #1**

[Please refer to the spreadsheet at the bottom of this document]

Workout Notes: don't let the intensity levels throw you off, if you maintain 80-85% for 90 minutes, you will find that you have plenty of energy for the last set. Make a mental decision to NOT increase your effort (based on your heart rate) even though you will be comfortable enough to do so. Keep in mind that this workout needs to be completed within your aerobic intensity zones to ensure that you are ready for your high-intensity workouts during the rest of the week.

Post Workout Protocols

- **Flexibility:** complete an [entire stretch routine](#) for your hips, hamstrings, quads and calves
- **Nutrition:** immediately consume [Recovery Fuel](#) to shorten your recovery window and replace depleted muscle sugar (making tomorrow's workouts more productive).

- **2 Hour Power Nap after lunch**

Misc. Notes: think about this nap as a shortcut to the top! The extra two hours of rest and recovery will ensure that your body is getting the necessary hGH (human growth hormone) along with a time to simply relax: mentally and physically. You have earned this extra dose of sleep, so take full advantage of it.

- **Evening Mental Protocols:** watch this video in a place where you have zero distractions for 10 minutes (the length of the video).
Psychology: concept video "[Face your fear of Failure](#)" – [video link](#)

Sunday

- **Body Analysis** – please use your Coach Robb Report Card to log this information for evaluation purposes
- **(Morning Workout) Complete Racing Solutions MX: Speed Workout #1**
[Please refer to the spreadsheet at the bottom of this document]
Workout Notes: this workout will yield high results if you pay close attention to your heart rate during the first 15 minutes of each set. As you know, when the body is warmed up, it can handle higher intensity/faster speeds much better. The goal here is for you to "feel" the increased speed and how much more in control you are during the last 15 minutes - all because your body had adequate time to prepare for the high-intensity levels. Fluid & calorie intake will be the key to a productive workout here.
Post Workout Protocols
 - **Flexibility:** complete an [entire stretch routine](#) for your hips, hamstrings, quads and calves
 - **Nutrition:** immediately consume [Recovery Fuel](#) to shorten your recovery window and replace depleted muscle sugar (making tomorrow's workouts more productive).
- **2-Hour Nap After Mid-Day Meal**
Misc. Notes: snacks are a key component to the quality of your nap. Mix things up with a multi-grain bagel with some almond butter and an avocado. This will give you the quality fat and protein needed to satisfy your appetite and feed your muscles for additional muscle growth.
- **(Afternoon Workout – No Nap, No Evening Ride) Complete Racing Solutions Bike: Even Tempo/Aerobic Enhancement (90')**
Workout Notes: keep a close eye on your HR throughout this ride to ensure that you keep the intensity levels on the easy side (HR Z2 or less) for maximum productivity: burn fat and enhance your aerobic engine. To keep you mentally stimulated, play around with your gearing while staying within your **HR Z2** – you may surprise yourself to find that you can adjust your gearing, increase your speed, and not increase your HR.
Pre-Hydration & Nutrition: 10-15 minutes before this workout, consume 8-10 ounces of cold [Energy Fuel](#) to top off both your calories and provide electrolytes for proper muscle contraction.
Warm Up: HR Zone 1
Duration: 20 minutes
Cadence: 80-85 (no higher/lower)
Gearing: small chain ring up front, middle rear gearing
Misc.: stretch and hydrate before moving into your main set
Main Performance Block: 60 minutes (HR Zone 2)
Set Notes: with your cadence between 75-85; the tallest gearing that you can maintain while keeping the chain tension tight and maintaining your cadence zone; every 10 minutes stand up and stretch your hamstrings, quads, calves and lower back. Hydrate with [Energy Fuel](#), [Complete Red](#) & [Purples](#) to maintain your blood sugar & energy levels.
Warm down: 10 Minutes (HR Zone 1)
Duration: 10 minutes (no shorter)
Cadence: 70-80 (no higher/lower)
Gearing: small chain ring up front, middle rear gearing
Misc. Notes: stretch your lower back, calves, and quads before dismounting
Post Workout Protocols
 - **Flexibility:** complete an [entire stretch routine](#) for your hips, hamstrings, quads and calves
 - **Nutrition:** immediately consume [Recovery Fuel](#) to shorten your recovery window and replace depleted muscle sugar (making tomorrow's workouts more productive).
- **Evening Protocols**
Nutrition: consume 8 ounces of [Energy Fuel](#) to top off your electrolytes and hydration levels
Foam Roller & Trigger Point Therapy: soften the muscle and connective tissue with the [foam roller & then apply TP therapy](#)
Diaphragmic Breathing: [click here](#) to strengthen your diaphragm (your breathing muscle), breath through a straw & nose closed
