

Training Cycle: Phase 2
Cycle Duration: 8 Weeks
Work Week 7/8

Focus: Enhanced Strength, Endurance & Lactate Tolerance

# Intensity Note:

- Blue highlights indicate HR Zone 2 or less (Builds your aerobic engine burns fat as a primary fuel source)
- Red highlights indicate HR Zone 3+ (Builds your strength, speed & LT burns stored sugar as a primary fuel source)

#### Monday

- Body Analysis please use your Coach Robb Body Analysis Spreadsheet to log this information for evaluation purposes
   Choose one of the following for your morning workout:
- Complete Racing Solutions Row: HR Intensity Blocks (30-40 Minute)

**Workout Notes:** this workout is going to acclimate your body to staying comfortable while it is working at a high level of intensity. To maximize the amount of oxygen available to your working muscles, focus on <u>diaphragmatic breathing</u> through your stomach and then your chest. Remember to lead with your legs for maximum power output and optimized endurance.

**Pre-Hydration & Nutrition:** 10-15 minutes prior to this workout, consume 8-10 ounces of ice cold <u>Energy Fuel</u> to top off both your calories and provide electrolytes for proper muscle contraction.

Warm up: HR Zone 1: Focus on a straight back and leading with your legs and finishing with your arms coming to your chest.

Load Level: 3 Distance: 2000 Meters Pull Rate: 20-25 Stretch from head to toe

Main Set#1: 1000 Meters-picking up the pace every 200 meters up to HR Z3 (no higher) - Repeat 5x

**Load Level: 5** Pull Rate: 25-35

Transition Set: 1000 Metes – HR Z2 – stretch & rehydrate as necessary

Main Set#2: 5 x 1000 meters: HR Z3 (no higher or lower) - 500 meter/ Active Recovery: HR Z2 or less (no higher)

Load Level: 5 Pull Rate: 25+

Cool Down-HR Zone 1: Focus on a straight back and leading with your legs and finishing with your arms coming to your chest.

Load Level: 3 Duration: 1000 Meters Pull Rate: less than 25 Stretch from head to toe

Complete Racing Solutions Bike: Intensity Distance Intervals (35 Minutes)

**Workout Notes:** this workout is going to generate high levels of lactic acid towards at the end of the workout (just like a race); with this in mind, focus on maximizing your efficiency early so that you have the highest levels of strength left within the muscles necessary to sustain HR Z3.

**Pre-Hydration & Nutrition:** 10-15 minutes prior to this workout, consume 8-10 ounces of ice cold <u>Energy Fuel</u> to top off both your calories and provide electrolytes for proper muscle contraction.

Warm Un:

Duration: 10 Minutes Intensity Level: **HR Z1** 

Cadence: 80 or less Gearing: small up front – middle back (low load levels)

Main Set:

Mile at HR Z3 – tallest gear combination you can maintain 85-90 cadence range
 Mile at HR Z2 – tallest gear combination you can maintain 90 plus cadence

Repeat 10 times

**Cool Down:** 

Duration: 5 Minutes Intensity Level: **HR Z1** 

Cadence: 80 or less Gearing: small up front – middle back (low load levels)

(Immediately following your above workout-morning & evening) Complete Racing Solutions Abdominal & Lower Back Work

Workout notes: complete each of the following exercises for 30 seconds; your rest interval is 30 seconds as you move to the

next exercise. Go through each exercise and then repeat the entire set - total of 2 sets.

Superman's: click here for video
Ab Crunch on Fit Ball: click here for video
Hanging Leg Lift: click here for video

**Post Workout Protocols** 

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- **Nutrition:** immediately consume <u>Recovery Fuel</u> to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- Evening Protocols

**Mental Imagery:** after implementing 10-15 deep belly breathes, visualize your next race – start to finish. See yourself implementing & maintaining perfect mechanics in every situation.

## **Tuesday**

- Body Analysis please use your Coach Robb Body Analysis Spreadsheet to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions Combo Weight Workout: Super Slow Challenge

[Please use the spreadsheet and associated videos listed at the bottom of this document]

Workout notes: this is the last week of these exercises (then your entire strength program will change). Be aggressive with your effort during these strength workouts.

Pre-Hydration & Nutrition: 10-15 minutes prior to this workout, consume 8-10 ounces of ice cold Energy Fuel to top off both your calories and provide electrolytes for proper muscle contraction.

Sets: 2 Repetitions: 6 minimum/8 maximum (both upper and lower body) **Post Workout Protocols** 

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume Recovery Fuel to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- **Evening Protocols**

Mental Imagery: after implementing 10-15 deep belly breathes, visualize your next race – start to finish. See yourself implementing & maintaining perfect mechanics in every situation.

Shin Stripping: in addition to your foam Roller & TP therapy; take your thumb and firmly press along the edge of your shin bone from your ankle up to your knee area. When you feel a knot or sticky spot, apply slightly more pressure and hold for 5-10 seconds then slide further up the shin. Complete both sides of the shin bone for both legs.

#### Wednesday

Body Analysis - please use your Coach Robb Body Analysis Spreadsheet to log this information for evaluation purposes Choose one of the following for your morning workout:

Complete Racing Solutions Row: HR Intensity Intervals (30-35 Minutes)

Misc. Notes: this workout is going to generate high levels of lactic acid towards at the end of the workout (just like a race); with this in mind, focus on maximizing your efficiency early so that you have the highest levels of strength left within the muscles necessary to sustain HR Z3.

Pre-Hydration & Nutrition: 10-15 minutes prior to this workout, consume 8-10 ounces of ice cold Energy Fuel to top off both your calories and provide electrolytes for proper muscle contraction.

Warm up: HR Zone 1: Focus on a straight back and leading with your legs and finishing with your arms coming to your chest. Stretch from head to toe

Load Level: 3 **Distance:** 2000 Meters **Pull Rate: 20-25** 

Main Set#1: Load Level: 5 Pull Rate: 25-35

1500 Meters @ HR Z3 - 500 Meters/Active Recovery

Repeat 3x

Cool Down-HR Zone 1: Focus on a straight back and leading with your legs and finishing with your arms coming to your chest.

Load Level: 3 **Duration:** 1000 Meters Pull Rate: less than 25 Stretch from head to toe

**Complete Racing Solutions Bike: Power Interval Workout (30 Minutes)** 

Misc. Notes: this workout is going to acclimate your body to staying comfortable while it is working at a high level of intensity. To maximize the amount of oxygen available to your working muscles, focus on diaphragmatic breathing through your stomach and then your chest. Remember to pedal in full circles for maximum power output and optimized endurance.

Pre-Hydration & Nutrition: 10-15 minutes prior to this workout, consume 8-10 ounces of ice cold Energy Fuel to top off both your calories and provide electrolytes for proper muscle contraction.

Warm Up:

Duration: 10 Minutes Intensity Level: HR Z1

Cadence: 80 or less Gearing: small up front - middle back (low load levels)

Main Set #1 (15 Minutes)

4 Minutes at HR Z3 - tallest gear combination you can maintain 85-90 cadence ranges 1 Minutes at **HR Z2** – tallest gear combination you can maintain 90 plus cadence

Repeat 3 times

Cool Down:

Duration: 5 Minutes Intensity Level: HR Z1

Cadence: 80 or less Gearing: small up front – middle back (low load levels)

(Immediately following your above workout-morning & evening) Complete Racing Solutions Abdominal & Lower Back Work Workout notes: complete each of the following exercises for 30 seconds; your rest interval is 30 seconds as you move to the

next exercise. Go through each exercise and then repeat the entire set - total of 2 sets.

Superman's: click here for video Pike-Push Up on Fit Ball: click here for video Ab Crunch on Fit Ball: click here for video Hanging Leg Lift: click here for video

## **Thursday**

- Body Analysis please use your Coach Robb Body Analysis Spreadsheet to log this information for evaluation purposes
- (Morning Workout) Complete Racing Solutions Combo Weight Workout: Super Slow Challenge

[Please use the spreadsheet and associated videos listed at the bottom of this document]

**Workout notes:** this is the last week of these exercises (then your entire strength program will change). With this in mind, be aggressive with your effort during these strength workouts.

**Pre-Hydration & Nutrition:** 10-15 minutes prior to this workout, consume 8-10 ounces of ice cold <u>Energy Fuel</u> to top off both your calories and provide electrolytes for proper muscle contraction.

Sets: 2 Repetitions: 6 minimum/8 maximum (both upper and lower body)
Post Workout Protocols

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume <u>Recovery Fuel</u> to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- Evening Protocols

**Mental Imagery:** after implementing 10-15 deep belly breathes, visualize your next race – start to finish. See yourself implementing & maintaining perfect mechanics in every situation.

**Shin Stripping:** in addition to your foam Roller & TP therapy; take your thumb and firmly press along the edge of your shin bone from your ankle up to your knee area. When you feel a knot or sticky spot, apply slightly more pressure and hold for 5-10 seconds then slide further up the shin. Complete both sides of the shin bone for both legs.

#### Friday

 Body Analysis – please use your Coach Robb Body Analysis Spreadsheet to log this information for evaluation purposes Complete Rest Day

**Misc. Notes** pay close attention to your food intake prior to lying down to sleep (both for your naps and evening rest). When you are sleeping, your brain is fed from the stored sugar in your liver. If your brain doesn't get enough fuel (in the form of sugar), you will not stay in the deepest level of sleep (REM 3 and 4) which will hinder your body's release of hGH (human growth hormone) resulting in reduced recovery and rejuvenation. As we have discussed previously, the only thing that satisfies hunger is protein and fat so make sure that are including high quality protein and fats to each snack and meal; when your body is satisfied with high quality food, you will sleep deeper and longer (because you don't wake up) helping improve your recovery and development of new muscle tissue (helping you improve your strength & endurance). Implement the 1% rule, improve your program (sleep, food, stretching, hydration, etc.) by 1% per day and where will you be in a month, six months or a year!

Evening Protocols

**Mental Imagery:** after implementing 10-15 deep belly breathes, visualize your next race – start to finish. See yourself implementing & maintaining perfect mechanics in every situation.

**Shin Stripping:** in addition to your foam Roller & TP therapy; take your thumb and firmly press along the edge of your shin bone from your ankle up to your knee area. When you feel a knot or sticky spot, apply slightly more pressure and hold for 5-10 seconds then slide further up the shin. Complete both sides of the shin bone for both legs.

#### Saturday

- Body Analysis please use your Coach Robb Body Analysis Spreadsheet to log this information for evaluation purposes
   Choose one of the following for your morning workout:
- Complete Racing Solutions Row: HR Intensity Blocks (40 Minutes)

**Misc. Notes:** for maximum productivity, pay close attention to your intensity levels throughout this workout. Your awareness of what each intensity level "feels" like increases your familiarity of the intensity and associated speed. This awareness also provides you feedback regarding how long you can maintain the various intensity levels (keep in mind the inverse relationship of volume & intensity – the higher the intensity, the lower the duration you can maintain and vice versa).

**Pre-Hydration & Nutrition:** 10-15 minutes prior to this workout, consume 8-10 ounces of ice cold <u>Energy Fuel</u> to top off both your calories and provide electrolytes for proper muscle contraction.

Warm up-HR Zone 1: Focus on a straight back and leading with your legs and finishing with your arms coming to your chest.

Load Level: 3 Duration: 5 Minutes Pull Rate: less than 25 Stretch from head to toe

**Main Set#1:** Have your HR Zones written down and easily visible during this workout to eliminate you missing your intensity levels **Load Level: 5 Pull Rate:** 25-35

Settle into each HR Zone as quickly as possible and then settle into the effort level with perfect form and deep breathing

Five Minutes: Upper range (5 beats of your top number) of HR Z2 Five Minutes: Lower range (5 beats of your low number) of HR Z3 Five Minutes: Upper range (5 beats of your top number) of HR Z3

Repeat – for a total of 30 minutes

Cool Down-HR Zone 1: Focus on a straight back and leading with your legs and finishing with your arms coming to your chest.

Load Level: 2 Duration: 5 Minutes Pull Rate: less than 25 Stretch from head to toe

Complete Racing Solutions Bike: Intensity Distance Intervals (35 Minutes)

**Misc. Notes:** Once you are finished with your warm-up, your goal is to settle into your HR Z3 (no higher or lower) and complete a 5 minute "interval". Once you settle into this intensity zone, focus on your belly breathing to maximize your oxygen uptake; this will allow you to maintain your speed while staying in your HR Z3. During your 5-minute rest interval, spin easy and allow your HR to get back into HR Z1.

**Pre-Hydration & Nutrition:** 10-15 minutes prior to this workout, consume 8-10 ounces of ice cold <u>Energy Fuel</u> to top off both your calories and provide electrolytes for proper muscle contraction.

Warm up-HR Zone 1: Focus on optimum pedal mechanics right from the beginning

Duration: 10 minutes Gearing: small chain ring up front, middle rear gearing
Cadence: 80-85 (no higher/lower)

Misc.: stretch and hydrate before moving into your main set

# Main Set: Heart Rate Pyramids: 4 x 5 Minutes

Settle into low end of HR Z3 and maintain for 2.5 minutes (Accelerate and get there quickly) Recover by spinning easy for 2.5 minutes in HR Z1 (no higher for optimum recovery)

# Cool Down-HR Zone 1: Keep a close eye on your HR level for the final 2 minutes

**Duration:** 5 minutes **Gearing:** the easiest combination that allows for 85-90 cadence & HR Z1

**Cadence:** 85-90 **Misc.:** don't dismount until your heart rate is within HR Z1

(Immediately following your above workout) Complete Racing Solutions Abdominal & Lower Back Work

**Workout notes:** complete each of the following exercises for **20 seconds**; your rest interval is **40 seconds** as you move to the next exercise. Go through each exercise and then repeat the entire set - total of 2 sets.

Standing Abdominal Twists: click here for video
Abdominal Roll Out on Fit Ball: click here for video
Abdominal Roll Out on Fit Ball: click here for video
Abdominal Pike on Fit Ball: click here for video
Ab Crunch on Fit Ball: click here for the video link
Post Workout Protocols

- Flexibility: complete an entire stretch routine for your hips, hamstrings, quads and calves
- Nutrition: immediately consume <u>Recovery Fuel</u> to shorten your recovery window and replace depleted muscle sugar (making tomorrows workouts more productive).
- Evening Protocols

**Mental Imagery:** after implementing 10-15 deep belly breathes, visualize your next race – start to finish. See yourself implementing & maintaining perfect mechanics in every situation.

**Shin Stripping:** in addition to your foam Roller & TP therapy; take your thumb and firmly press along the edge of your shin bone from your ankle up to your knee area. When you feel a knot or sticky spot, apply slightly more pressure and hold for 5-10 seconds then slide further up the shin. Complete both sides of the shin bone for both legs.

## Sunday

- Body Analysis please use your Coach Robb Body Analysis Spreadsheet to log this information for evaluation purposes
- Choose one of the following for your morning workout:
- Complete Racing Solutions Row: HR Intensity Intervals (35 Minutes)

**Misc. Notes:** these power blocks are all about creating...power! With, the first couple of intervals is going to be more difficult mentally than they are physically. The interesting aspect of power is that the generation of power is a combination of the nervous system and the muscles working in unison together – once this combination is activated, the generation of power becomes "easier". Be patient and be mentally focused on your form to avoid any potential injury (pulled muscle, tendon & ligaments).

**Pre-Hydration & Nutrition:** 10-15 minutes prior to this workout, consume 8-10 ounces of ice cold <u>Energy Fuel</u> to top off both your calories and provide electrolytes for proper muscle contraction.

**Warm up-HR Zone 1:** Focus on a straight back and leading with your legs and finishing with your arms coming to your chest. **Display: Duration Load Level: 3 Duration:** 10 Minutes **Pull Rate:** less than 25 **Stretch from head to toe** 

Main Set#1: HR Power Intervals

Load Level: 8 Pull Rate: 25 plus

1 Minute holding the fastest pace you can maintain for 1 minute – be aggressive here!

1 Minute at an easy effort (keep moving) with good form to avoid an injury. )

Repeat 10x = 20 Minutes

**Cool Down-HR Zone 1:** Focus on a straight back and leading with your legs and finishing with your arms coming to your chest. **Load Level: 2 Duration:** 5 Minutes **Pull Rate:** less than 25 **Stretch from head to toe** 

Complete Racing Solutions Bike: Power Interval Workout (35 Minutes)

**Misc. Notes:** the key to maximizing your productivity during this workout is to keep a close eye on your intensity levels (no higher than HR Z3); your leg turnover is going to be slow intentionally. Feel the various muscles working together to create power throughout the entire 360 pedal stroke. You want to feel your quads, hamstrings, calves and gluts all firing to turn the pedals.

**Pre-Hydration & Nutrition:** 10-15 minutes prior to this workout, consume 8-10 ounces of ice cold <u>Energy Fuel</u> to top off both your calories and provide electrolytes for proper muscle contraction.

Warm up-HR Zone 1: Focus on optimum pedal mechanics right from the beginning

**Duration:** 10 minutes **Gearing:** small chain ring up front, middle rear gearing **Cadence:** 80-85 (no higher/lower) **Misc.:** stretch and hydrate before moving into your main set

Main Performance Block #1: 20 minutes (HR Zone 3)

2-Minute-Tall Gear Acceleration out of the saddle interval

Big chain ring up front, hardest gear in the back stand up & focus on keeping yourself from "bottoming out" at the bottom of the pedal stroke (pull back prior to hitting bottom dead center). Push your effort until you hit your upper end of HR Z3 by the end of the 2 minutes.

2 minutes: easy tempo; active recovery; breath through your belly to bring your HR down quickly REPEAT THIS 4 MINUTE BLOCK 5 TIMES FOR A TOTAL OF 20 MINUTES

Cool Down (HR Zone 1): Keep a close eye on your HR level for the final 5 minutes

**Duration:** 5 minutes **Gearing:** the easiest combination that allows for 85-90 cadence & HR Z1

Cadence: 85-90 Misc.: don't dismount until your heart rate is within HR Z1

(Immediately following your above workout) Complete Racing Solutions Abdominal & Lower Back Work

**Workout notes:** complete each of the following exercises for **20 seconds**; your rest interval is **40 seconds** as you move to the next exercise. Go through each exercise and then repeat the entire set - total of 2 sets.
